STØT VORE ANNONCØRER

- DE STØTTER OS

A warm welcome to everybody

Once again it is my great pleasure to welcome players, officials, referees and the public to our traditional youth tournaments here in Lyngby. This year we are celebrating the 10th anniversary of these tournaments that started back in 1991 with participants from the Scandinavian countries.

In 2000 we are proud to present clubs from eight different countries and we can almost guarantee two weeks of exciting football with a lot of tomorrow's talented players gathered on the fields at Lyngby Stadium.

No less than 70 matches will be played during the next two weeks before the final outcome is known. Enough to cater for even the most soccer crazy person. I am convinced that you will enjoy yourselves.

Best wishes
Mikkel Sørensen
Chairman

Nyt pulsur Introduceres i Danmark

Sports Instruments, som er et anerkendt amerikansk firma, blev grundlagt med den vision at skabe de bedste måleredskaber, så sportsudøveren får mulighed for at optimere træningen. Hvert produkt kombinerer den nyeste teknologi med brugervenlighed, hvilket betyder, at der er hurtig og nem adgang til de relevante informationer. Dette hindrer forvirring og uforståelige målinger. ECG serien af pulsmålere er endvidere udviklet så uret ergonomisk er tilpasset håndleddets kurve, hvilket sammen med det flotte design gør pulsmålere i ECG serien til en helt ny generation af træningsredskaber.

ECG serien af pulsmålere fra Sports Instruments benytter ligesom de andre hjertefrekvensmålere fra Sports Instruments den eksklusive IndePad-sender, der giver optimal bekvemmelighed og præstation. Gummisensorene, som registrerer kroppens hjertesignaler, bevæger sig uafhængigt af senderen, og det betyder, sensorene kan bevæge sig næsten frit under træningen, hvilket giver jævn og konstant hudkontakt og derved eliminerer fejlmålinger.

ECG 5 er med hukommelse og genkalde-funktion designet for atleter, der ønsker at få det optimale ud af træningen. Det eksklusive 48 intervals-stopur giver to muligheder for display af tiden, idet der både kan vises tiden for det aktuelle interval samt den totale tid for alle intervaller. Pulsmålerens hukommelse og genkalde-funktion gør det muligt at få gennemsnitspuls for hele træningen samt for hvert interval. Dette sammenholdt med de øvrige funktioner gør ECG 5 til et seriøst træningsredskab.

Ur funktioner:

- ✓ Klokken
- ✓ Dato/ugedag
- ✓ Alarm
- ✓ Stopur
- ✓ 48 intervals/totaltids stopur
- ✓ Nedtælling
- ✓ Ultra niteglow - natlys

Pulsmåler funktioner:

- ✓ Hjertefrekvens m. EKG Præcision
- ✓ Visning af tid i zone
- ✓ Pulszone (øvre/nedre grænse)
- ✓ Pulszone hukommelse og genkald
- ✓ Gennemsnitlig puls for træningen
- ✓ Gennemsnitlig puls for hvert interval
- ✓ Zonealarm (synlig og hørbar)
